---

**According to Oxford Advanced Learner's Dictionary of  
Current English, 1974:**

# SOUND:

---

✓ Öresund

---

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

# SOUND:

---

- ✓ Öresund
- ✓ Healthy, in good condition, not injured

---

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

# SOUND:

---

- ✓ Öresund
- ✓ Healthy, in good condition, not injured
- ✓ Based on reason

---

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

# SOUND:

---

- ✓ Öresund
- ✓ Healthy, in good condition, not injured
- ✓ Based on reason
- ✓ Capable, careful

---

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

# **SOUND:**

---

- ✓ **Öresund**
- ✓ **Healthy, in good condition, not injured**
- ✓ **Based on reason**
- ✓ **Capable, careful**
- ✓ **Complete, thorough**

---

**According to Oxford Advanced Learner's Dictionary of Current English, 1974:**

# SOUND:

---

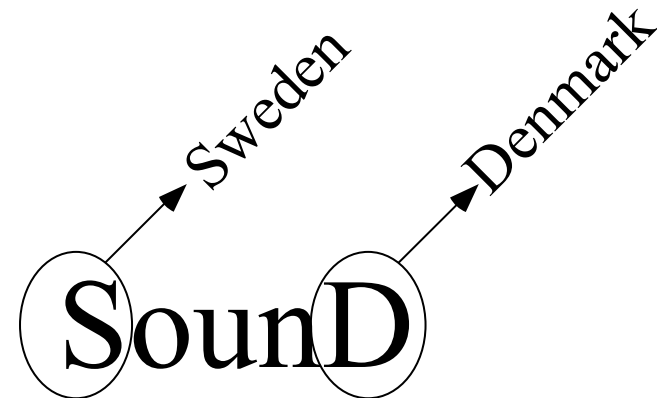

- ✓ Öresund
- ✓ Healthy, in good condition, not injured
- ✓ Based on reason
- ✓ Capable, careful
- ✓ Complete, thorough
- ✓ Examine, test

---

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

# SOUND:

- ✓ Öresund
- ✓ Healthy, in good condition, not injured
- ✓ Based on reason
- ✓ Capable, careful
- ✓ Complete, thorough
- ✓ Examine, test

According to Oxford Advanced Learner's Dictionary of Current English, 1974:

**More than 50% of long-term sick leave  
is due to musculoskeletal disorders**

# Specific prerequisites in the SOUND Region?

---

**Matthiessen & Winkel Schwarz;**

**“Scientific Centres in Europe: An Analysis of Research Strength and Patterns of Specialisation Based on Biometric Indicators”**

***Urban Studies*, Vol. 36, No. 3, 453-477, 1999**

**Success disciplines in the SOUND Region**  
**regarding proportion of Global output :**  
(Papers 1994-96/Science Citation Index)

(out of 123 disciplines)

**Succes disciplines in the SOUND Region**  
**regarding proportion of Global output :**  
(Papers 1994-96/Science Citation Index)

**No 1: Ergonomics:**  
3 % of Global output

(out of 123 disciplines)

# **SOUND in the future:**

---

**More focus on issues of high  
significance to society**

**STOP!**

# Seminars:

---

## **Examples of themes:**

The Norwegian program for research on interventions for improved musculoskeletal health at the workplace: (Key note: Stein Knardahl, STAMI, Norway)

Occupational psychosocial exposures and musculoskeletal outcome. Presentation of different models and their empirical basis. (Key note: Robert Karasek)

Mechanisms: From mechanical exposures to MS disorders  
(Key note: Håkan Johansson, NIWL, Umeå)

Ergonomics in the new working life and implications for musculoskeletal outcome  
(Key note: Peter Docherty, Tomas Backström, NIWL, Stockholm)
